CINTA=LOVE

The word Cinta means love in Indonesian. The Cinta Collection is the perfect marriage of contemporary design and the rich history of reclaimed teak. That history lives both on and below the surface of Cinta, the FSC certified reclaimed teak tile and mosaic collection created by Erin Adams for IndoTeak Design. The application of wood has been reimagined with artistic inventiveness—mix colors, shapes, and textures to create unique customizable creations. Cinta's broad offering of mesh mounted mosaics and patterns create sustainable spaces of warmth and timeless design. Exquisitely hand-made, Cinta is available as an 8" x 8" mesh mounted tile or 4'x8' custom panel.

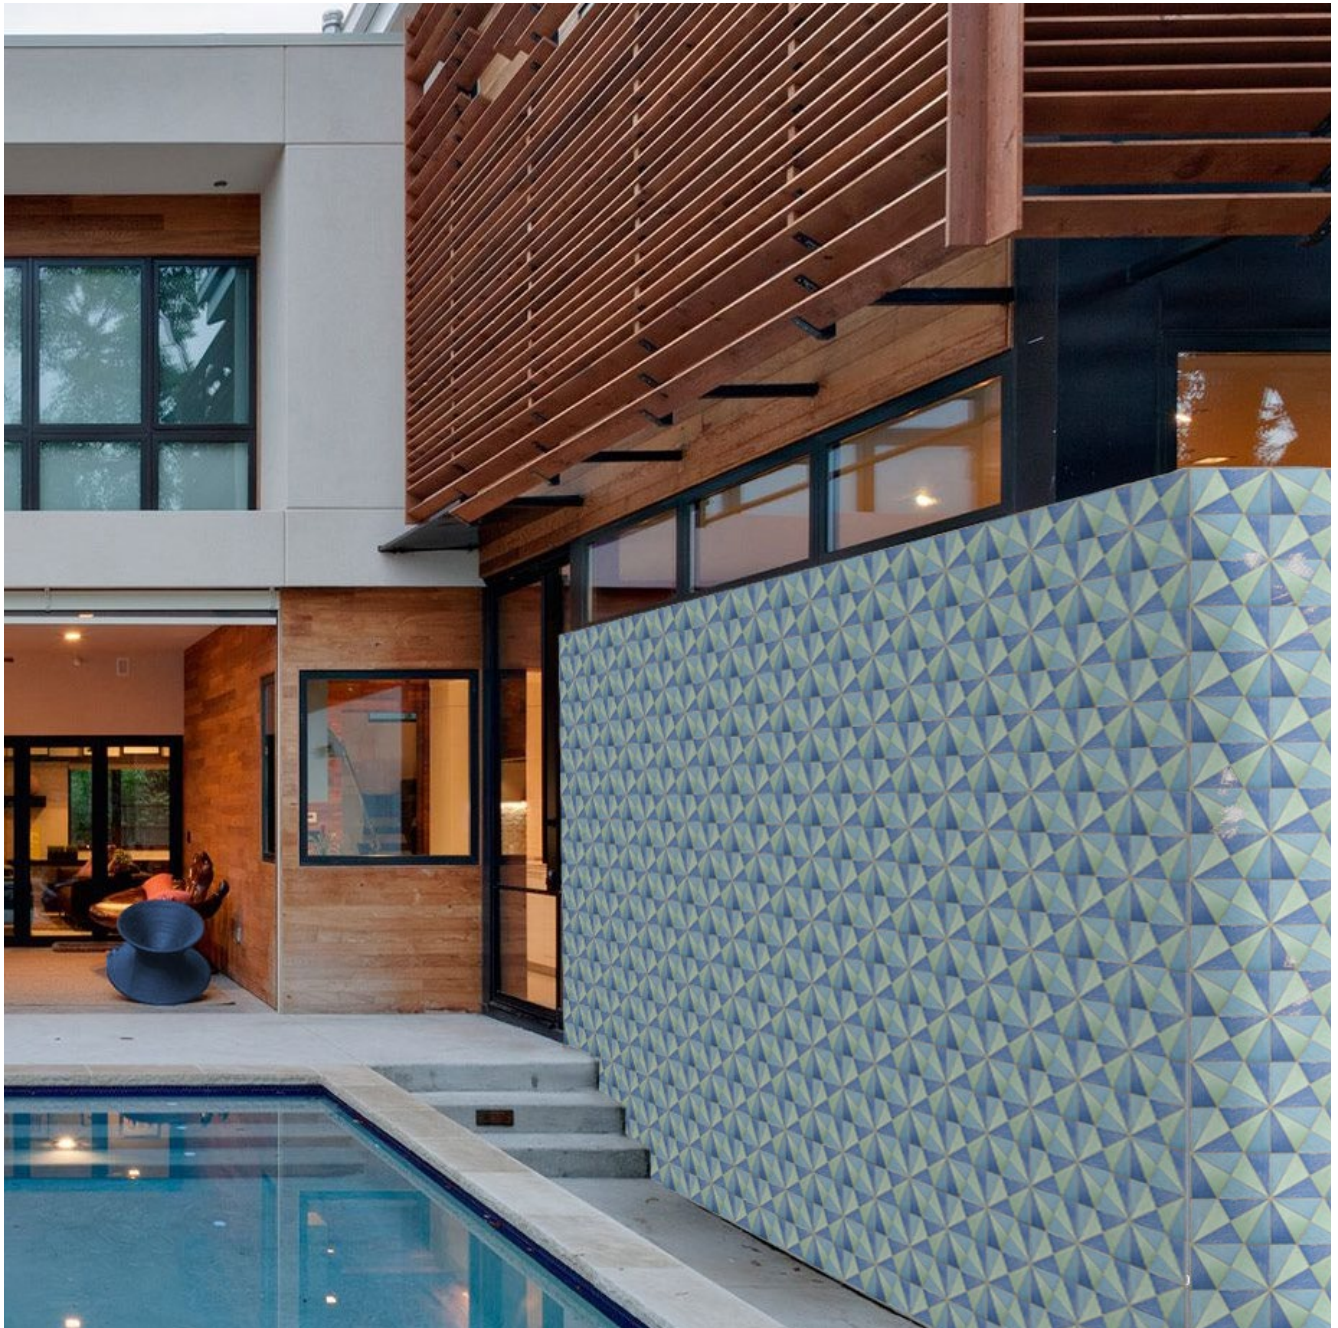

MIX & MATCH

5

Cinta is designed to be modular. You can order as it comes, or mix it up for a look that is uniquely you. Choose from the palette on the left and the shapes on the following pages. Any tile can be coated with resin for water resistance for application in wet environments..

WOOD GETS WET

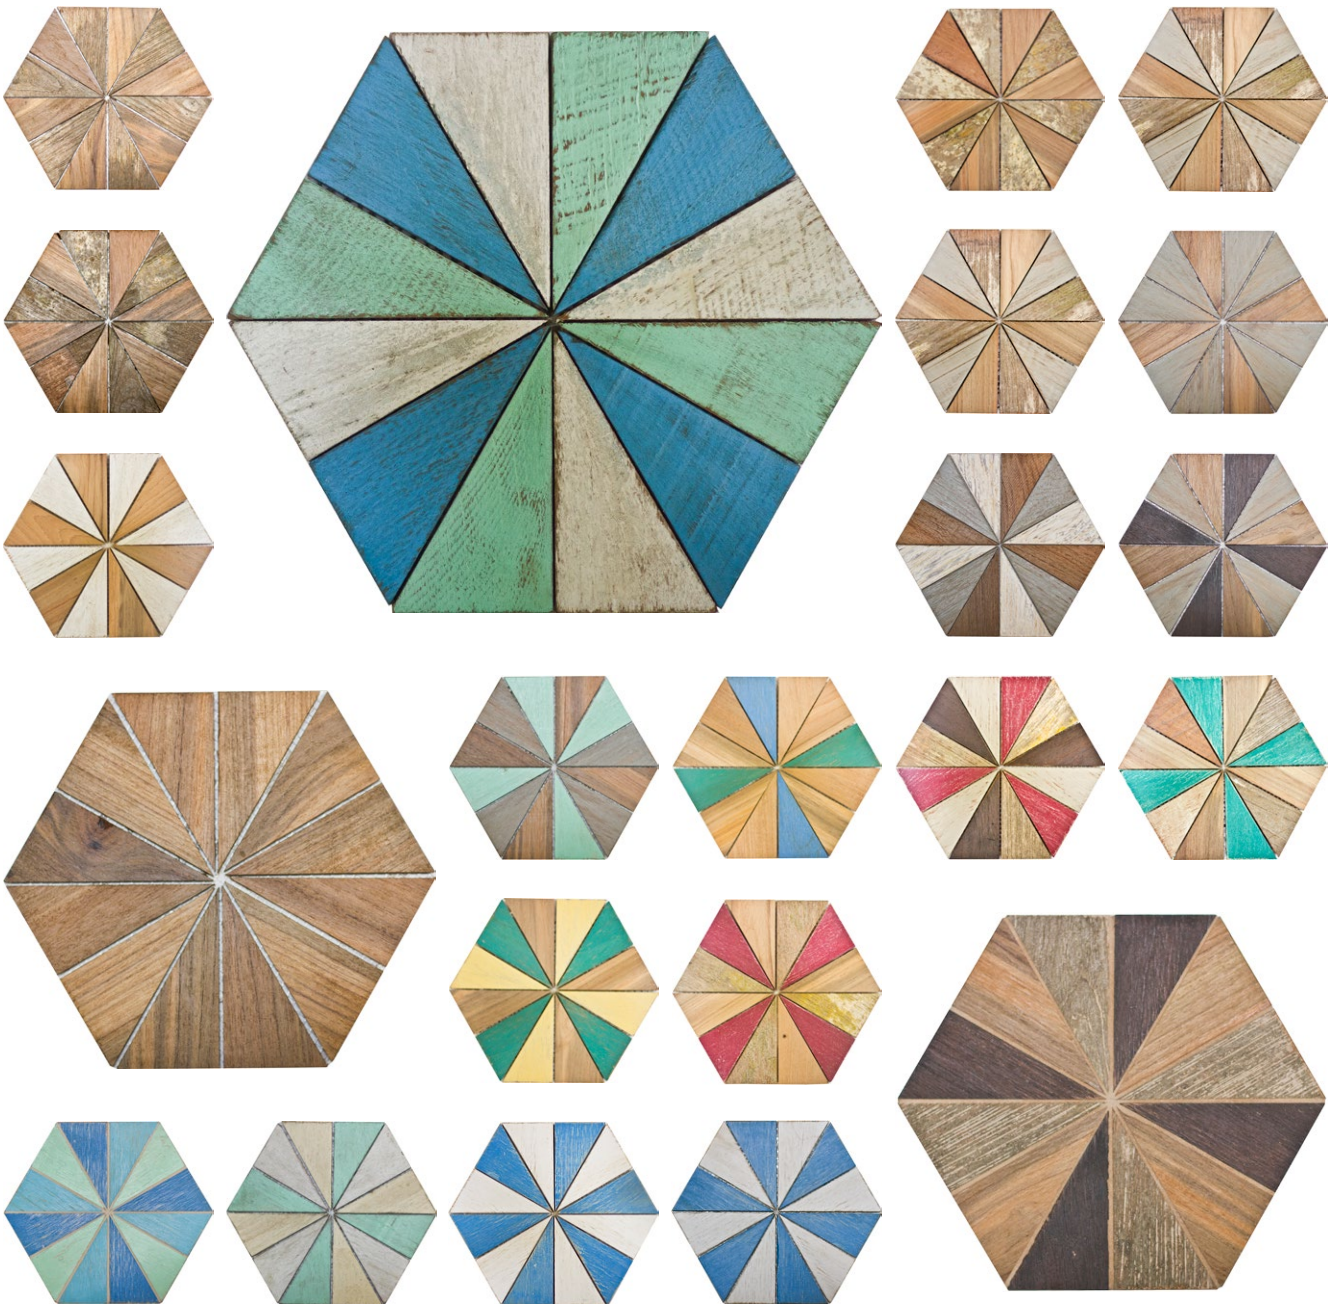

A first of its kind, the entire Cinta Collection is available with a custom glossy epoxy resin finish for wet environments including showers, back-splashes, and outdoor applications.
